If a Party concludes or amends an agreement of the type referred to in paragraph 2, it shall, upon request from the other Party, endeavour to accord to the other Party treatment no less favourable than that provided under that agreement. The former Party shall, upon request from the other Party, afford adequate opportunity to the other Party to negotiate the incorporation into this Agreement of a treatment no less favourable than that provided under the former agreement.

4. The provisions of this Chapter shall not be so construed as to prevent a Party from conferring or according advantages to adjacent countries in order to facilitate exchanges limited to contiguous frontier zones of services that are both locally produced and consumed.

ARTICLE 8.7: ADDITIONAL COMMITMENTS

A Party may also negotiate commitments with respect to measures affecting trade in services not subject to scheduling under Articles 8.4 and 8.5, including but not

PART III: OTHER PROVISIONS

ARTICLE 8.8: DOMESTIC REGULATION

1. In sectors where specific commitments are undertaken, each Party shall ensure that all measures of general application affecting trade in services are administered in a reasonable, objective and impartial manner.

2.

(a) Each Party shall maintain or institute as soon as practicable judicial, arbitral or administrative tribunals or procedures which provide, on request of an affected service supplier, for the prompt review of, and where justified, appropriate remedies for, administrative decisions affecting trade in services. Where such procedures are not independent of the agency entrusted with the administrative decision concerned, the Party shall ensure that the procedures in fact provide for an objective and impartial review.

(b) The provisions of subparagraph (a) shall not be construed to require a Party to institute such tribunals or procedures where this would be inconsistent with its constitutional structure or the nature of its legal system.

3. Where authorisation is required for the supply of a service on which a specific commitment under this Agreement has been made, the competent authorities of each Party shall:

(a) in the case of an incomplete application, on request of the applicant, identify all the additional information that is required to complete the application and provide the opportunity to remedy deficiencies within a reasonable timeframe;
(b) on request of the applicant, provide without undue delay information concerning the status of the application; and
(c) if an application is terminated or denied, to the maximum extent possible, inform the applicant in writing and without delay the reasons for such action. The applicant will have the possibility of resubmitting, at its discretion, a new application.

4. To ensure that measures relating to qualification requirements and procedures, technical standards and licensing requirements do not constitute unnecessary barriers to trade in services, the Parties shall jointly review the results of the negotiations on

disciplines on these measures pursuant to paragraph 4 of Article VI of GATS, with a view to their incorporation into this Agreement. The Parties note that such disciplines aim to ensure that such requirements are, *inter alia*:

(a) based on objective and transparent criteria, such as competence and the ability to supply the service;

(b) not more burdensome than necessary to ensure the quality of the service; and

(c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.

5.

(a) In sectors in which a Party has undertaken specific commitments, pending the incorporation of the disciplines referred to in paragraph 4, that Party shall not apply licensing and qualification requirements and technical standards that nullify or impair its obligation under this Agreement in a manner which:

(i) does not comply with the criteria outlined in subparagraphs 4(a), (b) or (c); and

(ii) could not reasonably have been expected of that Party at the time the specific commitments in those sectors were made.

(b) In determining whether a Party is in conformity with the obligation under subparagraph 5(a), account shall be taken of international standards of relevant international organisations applied by that Party.[6]

6. In sectors where specific commitments regarding professional services are undertaken, each Party shall provide for adequate procedures to verify the competence of professionals of the other Party.

7. A Party shall, in accordance with its laws and regulations, permit services suppliers of the other Party to use enterprise names under which they trade in the territory of the other Party.

8. In accordance with Georgian legislation, Georgia permits Chinese nationals to participate in Georgia's qualification examination for auditors and permits Chinese nationals who have passed such examination to be registered/licensed and practice in Georgia on the same condition as provided for Georgian service suppliers.

ARTICLE 8.9: RECOGNITION

1. Such recognition, which may be achieved through harmonisation or otherwise, may be based upon an agreement or arrangement between the Parties or their relevant competent bodies, or may be accorded autonomously.

2. Where a Party recognises, autonomously or by agreement or arrangement, the education or experience obtained, requirements met, or licences or certifications granted in the territory of a non-party, nothing in Article 8.6 shall be construed to require the Party to accord such recognition to the education or experience obtained, requirements met, or licences or certifications granted in the territory of the other Party.

3. A Party that is a party to an agreement or arrangement of the type referred to in paragraph 2, whether existing or in the future, shall afford adequate opportunity for the other Party, on request, to negotiate its accession to such an agreement or arrangement or to negotiate comparable ones with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that the education, experience, licences or certifications obtained or requirements met in that other Party's territory should also be recognised.

4. A Party shall not accord recognition in a manner which would constitute a means of discrimination between the other Party and non-parties in the application of its standards or criteria for the authorisation, licensing or certification of service suppliers, or a disguised restriction on trade in services.

ARTICLE 8.10: QUALIFICATIONS RECOGNITION COOPERATION

1. The Parties agree to encourage, where possible, the relevant bodies in their respective territories responsible for issuance and recognition of professional and vocational qualifications to strengthen cooperation and to explore possibilities for mutual recognition of respective professional and vocational qualifications.

2. Nothing in this Chapter shall affect the rights and obligations of the Parties as members of the International Monetary Fund in accordance with the Articles of Agreement of the International Monetary Fund, including the use of exchange actions which are in conformity with the Articles of Agreement, provided that a Party shall not impose restrictions on any capital transactions inconsistently with its specific commitments regarding such transactions, except under Article 16.6 (Measures to Safeguard the Balance of Payments) of Chapter 16 (General Provisions and Exceptions), or at the request of the International Monetary Fund.

ARTICLE 8.12: DENIAL OF BENEFITS

Subject to prior notification and consultation, a Party may deny the benefits of this Chapter to a service supplier of the other Party if the service supplier is a juridical person:

(a) owned or controlled by persons of a non-party or of the denying Party; and

(b) has no substantive business operations in the territory of the other Party.

ARTICLE 8.13: TRANSPARENCY

1. Each Party shall ensure that:
   (a) regulatory decisions, including the basis for such decisions, are promptly published or otherwise made available to all interested persons; and
   (b) its measures relating to public networks or services are made publicly available, including the requirements, if any, for permits.

2. Each Party shall ensure that, where a licence is required, all measures relating to the licensing of suppliers of public networks or services are made publicly available, including:

   (d) the cost of, or fees for applying for, or obtaining, a licence; and
   (e) the period of validity of a licence.

or the imposition or modification of conditions on, a licence. Each Party shall endeavour to provide, to the extent possible, such information in writing.

ARTICLE 8.14: CONTACT POINTS

Each Party shall designate one or more contact points to facilitate communications between the Parties on any matter covered by this Chapter, and shall provide details of such contact points to the other Party. The Parties shall notify each other promptly of any amendments to the details of their contact points.

ARTICLE 8.15: MODIFICATION OF SCHEDULES

1. A Party (referred to in this Article as the "modifying Party") may modify or withdraw any commitment in its Schedule in Annex 8-E and Annex 8-F at any time after three years have elapsed from the date on which that commitment entered into force, provided that:

(a) it notifies the other Party (referred to in this Article as the "affected Party") of its intention to modify or withdraw a commitment no later than three months before the intended date of implementation of the modification or withdrawal; and

(b) upon notification of a Party's intent to make such modification, the Parties shall consult and attempt to reach agreement on the appropriate compensatory adjustment.

2. In achieving a compensatory adjustment, the Parties shall endeavour to maintain a general level of mutually advantageous commitment that is not less favourable to trade than provided for in the Schedules prior to such negotiations.

3. If agreement under paragraph 1(b) is not reached between the modifying Party and the affected Party within three months, the affected Party may refer the matter to an arbitral tribunal in accordance with the procedures set out in Chapter 15 (Dispute Settlement) or, where agreed between the Parties, to an alternative arbitration procedure.

4. The modifying Party may not modify or withdraw its commitment until it has made the compensatory adjustments in conformity with the findings of the arbitral tribunal in accordance with paragraph 3.

5. If the modifying Party implements its proposed modification or withdrawal and does not comply with the findings of the arbitral tribunal, the affected Party may modify or withdraw substantially equivalent benefits in conformity with the findings of the arbitral tribunal.

ARTICLE 8.16: MONOPOLIES AND EXCLUSIVE SERVICE SUPPLIERS

GA

1. Each Party shall ensure that any monopoly supplier of a service in its territory does not, in the supply of the monopoly service in the relevant market, act in a manner inconsistent with that Party's obligations under its Schedule in Annex 8-E and Annex 8-F.

2. Where a Party's monopoly supplier competes, either directly or through an affiliated company, in the supply of a service outside the scope of its monopoly rights and which is subject to that Party's specific commitments in its Schedule in Annex 8-E and Annex 8-F, the Party shall ensure that such a supplier does not abuse its monopoly position to act in its territory in a manner inconsistent with such commitments.

3. If a Party has reason to believe that a monopoly supplier of a service of the other Party is acting in a manner inconsistent with paragraph 1 or 2, that Party may request the other Party establishing, maintaining or authorising such supplier to provide specific information concerning the relevant operations.

4. If, after the date of entry into force of this Agreement, a Party grants monopoly rights regarding the supply of a service covered by its specific commitments in its Schedule in Annex 8-E and Annex 8-F, that Party shall notify the other Party no later than three months before the intended implementation of the grant of monopoly rights, and paragraphs 1(b) and 2 of Article 8.16 shall apply.

5. This Article shall also apply to cases of exclusive service suppliers, where a Party, formally or in effect,

(a) authorises or establishes a small number of service suppliers; and

(b) substantially prevents competition among those suppliers in its territory.

ARTICLE 8.17: REVIEW

1. The Parties shall consult within two years of the date of entry into force of this Agreement and every two years thereafter, or as otherwise agreed, to review the implementation of this Chapter and consider other trade in services issues of mutual interest, with a view to the progressive liberalisation of the trade in services between them on a mutually advantageous basis.

2. Where a Party unilaterally liberalises a measure affecting market access of a service supplier or suppliers of the other Party, the other Party may request consultations to discuss the measure. Following such consultations, if the Parties agree to incorporate the liberalised measure into the Agreement as a new commitment, the relevant Schedule in Annex 8-E and Annex 8-F shall be amended.

Reference Paper

Scope

The following are definitions and principles on the regulatory framework for the basic telecommunications services.

Definitions

Users mean service consumers and service suppliers.

Essential facilities mean facilities of a public telecommunications transport network or service that:

(a) are exclusively or predominantly provided by a single or limited number of suppliers; and
(b) cannot feasibly be economically or technically substituted in order to provide a service.

A major supplier is a supplier which has the ability to materially affect the terms of participation (having regard to price and supply) in the relevant market for basic telecommunications services as a result of:

(a) control over essential facilities; or
(b) use of its position in the market.

1. Competitive safeguards

1.1 Prevention of anti-competitive practices in telecommunications

Appropriate measures shall be maintained for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in or continuing anti-competitive practices.

1.2 Safeguards

The anti-competitive practices referred to above shall include in particular:

(a) engaging in anti-competitive cross-subsidisation;
(b) using information obtained from competitors with anti-competitive results; and
(c) not making available to other services suppliers on a timely basis technical information about essential facilities and commercially relevant information which are necessary for them to provide services.

2. Interconnection

2.1 This section applies to linking with suppliers providing public telecommunications transport networks or services in order to allow the users of one supplier to communicate with users of another supplier and to access services provided by another supplier, where specific commitments are undertaken.

2.2 Interconnection to be ensured

Interconnection with a major supplier will be ensured at any technically feasible point in the network. Such interconnection is provided.

(a) under non-discriminatory terms, conditions (including technical standards and specifications) and rates and of a quality no less favourable than that provided for its own like services or for like services of non-affiliated service suppliers or for its subsidiaries or other affiliates;
(b) in a timely fashion, on terms, conditions (including technical standards and specifications) and cost-oriented rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the service to be provided; and
(c) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

2.3 Public availability of the procedures for interconnection negotiations

The procedures applicable for interconnection to a major supplier will be made publicly available.

2.4 Transparency of interconnection arrangements

It is ensured that a major supplier will make publicly available either its interconnection agreements or a reference interconnection offer.

2.5 Interconnection: dispute settlement

A service supplier requesting interconnection with a major supplier will have recourse, either:

(a) at any time; or
(b) after a reasonable period of time which has been made publicly known

to an independent domestic body, which may be a regulatory body as referred to in paragraph 5 below, to resolve disputes regarding appropriate terms, conditions and rates for interconnection within a reasonable period of time, to the extent that these have not been established previously.

3. Universal service

China has the right to define the kind of universal service obligation it wishes to maintain. Such obligations will not be regarded as anti-competitive *per se*, provided they are administered in a transparent, non-discriminatory and competitively neutral manner and are not more burdensome than necessary for the kind of universal service defined by China.

4. Public availability of licensing criteria

Where a licence is required, the following will be made publicly available:

(a) all the licensing criteria and the period of time normally required to reach a decision concerning an application for a licence; and
(b) the terms and conditions of individual licences.

GA 24

The reasons for the denial of a licence will be made known to the applicant upon request.

5. Independent regulators

The regulatory body is separate from, and not accountable to, any supplier of basic telecommunications services. The decisions of and the procedures used by regulators shall be impartial with respect to all market participants.

6. Allocation and use of scarce resources

Any procedures for the allocation and use of scarce resources, including frequencies, numbers and rights of way, will be carried out in an objective, timely, transparent and non-discriminatory manner. The current state of allocated frequency bands will be made publicly available, but detailed identification of frequencies allocated for specific government uses is not required.

Note by the Chairman

Revision

It has been suggested by a number of delegations that it might be helpful to produce a brief and simple note on assumptions applicable to the scheduling of commitments in basic telecoms. The purpose of the attached note is to assist delegations in ensuring the transparency of their commitments and to promote a better understanding of the meaning of commitments. This note is not intended to have or acquire any binding legal status.

NOTES FOR SCHEDULING BASIC TELECOM SERVICES COMMITMENTS

1. Unless otherwise noted in the sector column, any basic telecom service listed in the sector column:

(a) encompasses local, long distance and international services for public and non-public use;

(b) may be provided on a facilities-basis or by resale; and

(c) may be provided through any means of technology (e.g., cable[10],[13]wireless, satellites).

2. Subsector (g) --private leased circuit services -- involves the ability of service suppliers to sell or lease any type of network capacity for the supply of services listed in any other basic telecom service subsector unless otherwise noted in the sector column. This would include capacity via cable, satellite and wireless network.

3. In view of points 1 and 2 above, it should not be necessary to list cellular or mobile services as a separate subsector. However, a number of Members have done so, and a number of offers have commitments only in these subsectors. Therefore, in order to avoid extensive changes in schedules, it would seem appropriate for Members to maintain separate entries for these subsectors.

[10] Including all types of cable.

CHAIRMAN'S NOTE

Market Access Limitations on Spectrum Availability

Many Members have entries in the market access column of their schedules indicating that commitments are "subject to availability of spectrum/frequency" or similar wording. In light of the physical nature of spectrum and the constraints inherent in its use, it is understandable that Members may have sought to rely on these words to adequately protect legitimate spectrum management policies. There is, however, doubt that words such as "subject to availability of spectrum/frequency" as listed in the market access column of many Members' schedules achieve that objective.

Spectrum/frequency management is not, *per se*, a measure which needs to be listed under Article XVI. Furthermore under the GATS each Member has the right to exercise spectrum/frequency management, which may affect the number of service suppliers, provided that this is done in accordance with Article VI and other relevant provisions of the GATS. This includes the ability to allocate frequency bands taking into account existing and future needs. Also, Members which have made additional commitment in line with the Reference Paper on regulatory principles are bound by its paragraph 6.

Therefore, words such as "subject to availability of spectrum/frequency" are unnecessary and should be deleted from Members' schedules.

ATTACHMENT 2

Distribution Services

Distribution trade services are comprised of four main sub-sectors:

- commission agents services;
- wholesaling;
- retailing; and
- franchising.

The principal services rendered in each subsector can be characterised as reselling merchandise, accompanied by a variety of related subordinated services, including inventory management; assembly, sorting and grading of bulk lots; breaking bulk lots and redistributing into smaller lots; delivery services; refrigeration, storage, warehousing and garage services; sales promotion, marketing and advertising, installation and after sales services including maintenance and repair and training services. Distribution services are generally covered by CPC 61, 62, 63 and 8929.

Commission Agents' Services consist of sales on a fee or contract basis by an agent, broker or auctioneer or other wholesalers of goods/merchandise and related subordinated services.

Wholesaling consist of the sale of goods/merchandise to retailers to industrial, commercial, institutional, or other professional business users, or to other wholesalers and related subordinated services.

Retailing services consist of the sale of goods/merchandise for personal or household consumption either from a fixed location (e.g., store, kiosk, etc.) or away from a fixed location and related subordinated services.

Franchising services consist of the sale of the use of a product, trade name or particular business format system in exchange for fees or royalties. Product and trade name franchising involves the use of a trade name in exchange for fees or royalties and may include an obligation for exclusive sale of trade name products. Business format franchising involves the use of an entire business concept in exchange for fees and royalties, and may include the use of a trade name, business plan, and training materials and related subordinated services.

Insurance: Definition of "Master Policy"

Master policy is the policy that provides blanket coverage for the same legal person's property and liabilities located in different places. Master policy may only be issued by the business department of an insurer's head office or that of its authorised province-level branch offices. Other branches are not allowed to issue Master policy.

Master policy business with the state key construction projects as its subject-matter insured. If investors on state key construction projects (i.e., projects that are so listed and annually announced by the National Development and Reform Commission) meet either of the following requirements, they may purchase Master policy from insurers that are located in the same place as the investors' legal persons do.

The investment on the subject-matter insured is all from China (including the reinvestment from the foreign-invested enterprises in China), and the sum of investment of the investor accounts for over 15 percent of the total investment.

The investment is partially from abroad, and partially from China (including the reinvestment from the Foreign-invested enterprises in China), and the sum of investment of the Chinese investor accounts for over 15 percent for the total domestic investment.

For those projects that draw investment all from abroad, every insurer may provide coverage in the form of Master policies.

ANNEX I
Referred to in Chapter 2 (Trade in Goods)

SCHEDULES IN RELATION TO ARTICLE 2.4 (ELIMINATION OF CUSTOMS DUTIES)

PART 1
GENERAL NOTES

1. This Annex is based on the Harmonized System, as amended on 1 January 2012.

2. For the purposes of this Annex, the term "Base Rate", as specified in Column 3 of each Party's Schedule means the starting point of elimination of customs duties.

3. For the purposes of implementing equal annual instalments:

   (a) the reduction for the first year shall take place on the date of entry into force of this Agreement; and

   (b) the subsequent annual reductions shall take place on 1 January of each following year.

4. For the purposes of this Annex, the term "year" means, with respect to the first year, the period from the date of entry into force of this Agreement until the following 1 January and, with respect to each subsequent year, the twelve-month period which starts on 1 January of that year.

5. If, as a result of the elimination or reduction of its customs duty applied on a particular good on a most-favoured-nation basis, the most-favoured-nation applied rate becomes lower than the rate of customs duty to be applied in accordance with Article 2.4.1 (Elimination of Customs Duties) of Chapter 2 (Trade in Goods) on the originating good which is classified under the same tariff line as that particular good, each Party shall apply the lower rate with respect to that originating good.

PART 2
SCHEDULE OF THE PEOPLE'S REPUBLIC OF CHINA

Section A
Notes for Schedule of the People's Republic of China

1. Relation to the National Tariff Nomenclature. The items set forth in Section B of Part 2 of this Annex are based on China's national tariff nomenclature, effective on January 1, 2015. Subsequent changes in nomenclature, if any, will not affect the application of the preferential tariff rates.

2. Base Rates of Customs Duty. The base rates of customs duty set out in this Schedule reflect the Chinese most-favoured-nation (MFN) rates of duty in effect on 1 January 2015.

3. Staging. The following staging categories apply to the elimination of customs duties by China in accordance with Article 2.4.1 (Elimination of Customs Duties) of Chapter 2 (Trade in Goods):

(a) category "A" – the base rate of duty shall be eliminated and bound at zero for products of Georgian origin from entry into force of the Agreement;

(b) category "B" – the base rate of duty shall be reduced to and bound at zero for products of Georgian origin over five (5) equal annual stages beginning from entry into force of the Agreement;

(c) category "C" – the base rate of duty shall apply for products of Georgian origin.

4. The base rate of customs duty and staging category for an item are indicated for the item in Section B (Schedule of the People's Republic of China) of Part 2 of this Annex.

ANNEX II-A
PRODUCT SPECIFIC RULES OF ORIGIN

Section A: Introductory Notes

1. A change in tariff classification requirement under this Annex requires that each of the non-originating materials used in the production of the good undergoes a change of tariff classification as a result of production in the territory of one or both Parties.

2. For the purposes of the product specific rules set out in this Annex:

(a) **"CC"** denotes a change to the chapter, heading or subheading from any other chapter. This indicates that all non-originating materials used in the production of the good have undergone a change in tariff classification at the two-digit level (i.e. a change in chapter) of the Harmonized System;

(b) **"CTH"** denotes a change to the chapter, heading or subheading from any other heading. This indicates that all non-originating materials used in the production of the good have undergone a change in tariff classification at the four-digit level (i.e. a change in heading) of the Harmonized System;

(c) **"RVC%"** denotes the minimum requirement of regional value content as calculated under Article 3.4 (Regional Value Content) of Chapter 3 (Rules of Origin); and

(d) **"WO"** indicates that the good is wholly obtained or produced in a Party as defined in Article 3.3 (**Goods Wholly Obtained or Produced**) of Chapter 3 (Rules of Origin).

3. For goods classifiable under provisions for "waste" and "scrap" and which are not described by name, the origin criteria shall be WO.

4. This Annex is formulated on the basis of the Harmonised System as updated as Version2017.
